Dear Kurt,

Glad you could make the arrangements for Hood. You 'll find them the best people.
and I think the library will impress you for so small a college. How.

And if you come here before you go there, I'd like to send what I keep forgetting,
a duplicate of the Zapruder camera and my Bolex standard 8 projector.

The friend from Florida has not yet told us which of those days he is coming but
he did say it will be only for lunch for which he wants to take his wife to the oriental
restaurant of friends.

If that is a day you will be here, we can all have lunch together if you'd like.

Mc Knight is as fine a human as you'll ever meet. He is also one of the ^{few} authentic
subject-matter experts in academe.

We look forward,

Heisel
